POSTCARD - BACK

Over the last two years, AFLA has been fortunate to have designed a number of natural play areas in and around the Bristol area. These play areas all had very different requirements and our designs specifically met the needs of the site, local community and park users. The extensive consultation process included local schools, with children's imaginative ideas being interpreted and incorporated into the play areas.

Site specific features included board walks, spiral mounds, oak climbing wall, bespoke sand pits, crazy climbing structures, troll bridges and, at Gores Marsh, a landscape inspired by the Somerset levels. Planting has been kept robust and simple and included new reed beds, mature hazel bushes for structure and marshland trees. Play equipment was selected to be robust and of natural materials where possible.

Gores Marsh images overleaf show clockwise: concept sketch scheme; Robinia climbing frame; children at play; scale model of Gores Marsh Park; bespoke oak seating on new mound.

For further information, contact Alex Fraser (Practice Director) on:
